One year, strictly in advance, . . . 3 00\$
Six months, 1 50
Three months, 1 00
Advertising rates on application.

Entered at the Kingman Postoffice as Second Class Mail.

The stork left a baby boy at the home of I. D. Hilty Wednesday last.

Dr. and Mrs. A. L. Tilton have returned from their vacation spent on the coast.

H. L. Hanna, traveling freight agent of the Santa Fe, was a Kingman visitor this week.

O. D. M. Gaddis and J. E. Perry, in company of a mining man, went out to the Oro Plata mine this morning.

Edwin Stowe, son of C. M. Stowe, arrived from his old home in Florida last Sunday, and will remain some time in Kingman.

Mr. and Mrs. C. N. Nickell arrived from California last night, having been called home by the illness of Mrs. Nickell's mother.

Jack Cornelius is now able to get around town on crutches. He suffered a compound fracture of the bones of one leg more than a month ago.

Stuart Thompson visited the Grand Canyon this week, returning yesterday. He enjoyed the trip and believes it well worth the time and money of any one to make the trip.

Mrs. J. N. Cohenour and children are home again after four months in Los Angeles, where she had her little daughter under treatment by specialists. The little one is now well again.

The big black delivery horse of the Arizona Stores company fell into a sump hole in the rear of the residence of Ike Conkey, last Wednesday and before it could be gotten out died from its injuries.

Mrs. T. S. O'Brien and family are visiting with friends in Kingman, stopping over a day or two while on the way from Dakota to Los Angeles. Mr. O'Brien is superintending a property in Amador county, California.

Tomorrow there will be a baseball game between Oatman and Kingman on the local grounds. The Kingman team is playing excellent ball and the people should accord the players all encouragement and support.

The tax rate in Mohave county is expected to be 1.40\$ on the 100\$ of valuation. This will prove a most inviting rate and may bring many investments. Next year will witness a greatly increased tax roll and a reduced levy.

J. S. Withers and J. C. Potts went down to Mohave Gap to take a look at the new piece of roadway that is being constructed between that place and Topock. They report that with a small amount of work the road will be an excellent highway for travel to the west.

Mrs. Mattie Blakely and son Ernest returned Wednesday last from Los Angeles, where the boy was under the care of specialists. He was much benefited by treatment and it is probable that he will recover the use of his knee, from which an abscess was removed about a year ago.

J. K. P. Fancher and wife and Percy Thompson, who have been motoring in California, Mr. and Mrs. Fancher visiting old stamping grounds, arrived in Kingman a few days ago on the trip homeward bound. Mr. and Mrs. Fancher have the largest cattle ranch in the county on the Big Sandy.

Walter Brown and Frank L. Hunt departed Thursday last to Utah, where they will look over the country and its opportunities the next month. It is barely possible that Frank is to present Walter to some handsome widow of the land of the Saints and that there will be something doing in the Endowment House before their return.

Nadine Hubbs, Leo Mulligan, Olive Fancher, Beuna Hilty, Bessie Mulligan and Mable Van Marter, departed the first of the week to Flagstaff, where they enter the Northern Arizona Normal School for the ensuing term. Some of the students have been attending the school, while others are new members of the student body.

J. H. McLachlin and E. Mead, of Ottawa, Canada, arrived in Kingman Thursday last in a Packard Six. The car was driven through many of the states after leaving Canada and has stood up wonderfully well. The gentlemen have had a great time and covered more than 8,000 miles. They will leave today for Needles, thence over the scenic part of California, going home by the northern route.

Capt. C. Taylor, one of the old timers of this county, arrived in Kingman early this week from his home in Brant, New York. After remaining a day or two visiting his friends he went on to California, with the intention of returning in a month and remaining for some time looking after his mining affairs. It is probable that he will enter the Red Top group of mines for patent this year.

The Santa Fe is to put on a refrigerator car between Kingman and Los Angeles on the 18th of this month. This car will be used exclusively between Los Angeles and Needles and Kingman, carrying perishable products to no other places. The car will leave Los Angeles Mondays and Thursdays, arriving in Kingman Wednesdays and Saturdays. The needs of Kingman for refrigerated products is growing year by year and the railroad takes this means of giving the people a splendid service.

Axel Ericson, who has the contract of getting out the signs and sign posts for the Trail of the Padres through this county, has the work well under way, while Robert Rosco, who is to paint and letter the signs, has his work far advanced. By the middle of next week many of the signs will be ready to place. Mohave county will be one of the first counties in the state to have its roads completely signed up. While the east and west road will be signed with the National Old Trails signs the county roads will be also signed up to keep the traveler on the right road.

Today a handsome bar of bullion was brought in from the Frisco Gold Mines company by R. L. Dimmick, superintendent. The bar ran 987 fine, the finest bar of bullion from cyanide precipitates ever sent out to the mint. Mr. Dimmick also reports that an attempt was made to fire the buildings connected with the assay office of the plant last night. The incendiary threw a piece of burning waste that had been saturated with oil into the assay office and when the fire was discovered many valuable books and papers had been destroyed. One of the rooms was gutted, but the loss will not total more than 200\$.

The eight hour law for women goes into effect in this State on the 17th of this month. The law affects nearly all classes of women workers, although it is rather ambiguous so far as it relates to waitresses in railroad restaurants and hotels. Stenographers, telephone girls, nurses, shopwomen, saleswomen, laundry workers, come under the provision of the law, but where only three are employed in telephone or telegraph offices the law does not apply, although the employment is restricted to 56 hours per week, which would be at a rate of better than nine hours per day for a six-day week. The law is one of the worst ever passed in any state, as each following clause really nullifies the one preceding it.

The board of supervisors are totaling up the budget for the year with the view of making the levy for the year 1913. The state levy is 49½ cents on the 100\$ of valuation and it is expected that the county levy will reach 90 cents on the 100\$. This will make the state and county levy about 1.40\$ on the 100\$. This will be the smallest levy ever made in Mohave county and will be inviting to intending investors. The taxable property of the county amounts to 14,073,000\$, an increase over the amount reported to the tax commission. The power plant had a reduction of about 60,000\$, from 415,000\$ to 355,000\$. The original figure was very high and the people feel that the company reduction was the right thing. All acreage and city and town lots and stock of merchandise were raised, as was the value of cattle and horses in the county. The total raise did not amount to very much, but it brought the total to a point above the fourteen million mark. Only eight counties of the fourteen counties of the state exceed Mohave in wealth, while a few years ago Mohave was the lowest in taxable valuation of any of the counties.

Good Ball Game.

The rule is that the only good ball game is when the home team wins, which caused the Kingman people to appreciate a good ball game when the home team drubbed San Bernardino to the tune of 12 to 1 last Sunday.

As a prelude to the game the San Bernardino boys chortled their glee in the following item in the San Bernardino Times-Index:

"Kingman will be the object of tomorrow's baseball expedition of the Santa Fe shop Apprentices. The team will leave tonight on No. 10 and return early Monday morning. Houser and Houser will do the pitching and in case they fall down—which is improbable—Sellman will be on hand to heave the pellet over the rubber in big league style. Heinie Reister will be on the job behind the willow as shock absorber. The team expects to make the desert aggregation look like a freshly calcimined wall."

But oh, what a surprise. The visitors walked jauntily to the bat and retired inning after inning without a hit, Tommy Clark being invincible. He would give them three wide ones and then fan the strikers with three fast ones over the plate. The San Bernardino boys waited in expectation of the Kingman pitcher blowing up, but our flogger got better and better as the game progressed. The San Bernardino heavies were hit hard and when hits counted for runs.

This is the team that was considered invincible against many of the good teams of the country surrounding the old Mormon city, but they were too confident of taking the game from a team of the reputed quality of Kingman and met their Waterloo.

The initial sign of the Old Trails Roads was planted this week at the postoffice in Kingman and the other signs are to be erected as rapidly as possible. When these signs are all in place there will be no possibility of any traveler getting away from the main highway. Judge Krook and Ray Wheelock sent sample signs to Gallup and some of the towns to the east of this county, so that they may arrange for the erection of signs across their counties. The sign is possibly the handsomest road sign ever designed in the United States and contains all the data that the traveler should know. With the signing of the roads Mr. Wheelock is also preparing a road map that will be furnished the traveler through this county and each of the other counties will have maps of their roads, which will be of great value to the traveling public.

John Boyle, Jr., was out to the Goldconda mine this week to arrange for the early resumption of shipping.

Dr. Paul McIntosh, dentist, will leave to finish up work at the camps and will then go on his vacation for 30 days. It will pay you to wait for him for reliable dentistry.

Mothers! Have Your Children Worms?
Are they feverish, restless, nervous, irritable, dizzy or constipated? Do they continually pick their nose or grind their teeth? Have they cramping pains, irregular and ravenous appetite? These are all signs of worms. Worms not only cause your child suffering, but stunt its mind and growth. Give "Kickapoo Worm Killer" at once. It kills and removes the worms, improves your child's appetite, regulates stomach, liver and bowels. The symptoms disappear and your child is made happy and healthy, as nature intended. All druggists or by mail, 25c. Kickapoo Indian Medicine Company Philadelphia, Pa. St. Louis, Mo.

FOR RENT—A neatly furnished room in good locality, for either lady or gentleman. Enquire at this office.

Stockholders Annual Meeting

The annual meeting of the stockholders of the Odd Fellows Building Association will be held at the office of A. Ericson, in Kingman, Arizona, on Thursday, the 11th day of September, 1913, at the hour of two o'clock in the afternoon, for the purpose of transacting such business as may legally come before the meeting, and for the election of a board of directors for the ensuing year.

HENRY LOVIN, President.
HENRY E. LANG, Secretary.
Dated at Kingman this 16th day of August, 1913.

The Real Harvest \$ Put it in the Bank

The real harvest that any man expects is the financial harvest. After you have worked hard for your money, what are you going to do with it? Is it going to be frittered away in silly extravagances? Not if you are WISE. Your own labor is your best asset. Do not waste the result of it on foolish things, but put as much as possible of it into the bank for that DECEMBER of your life that is BOUND TO COME

Should the American Minerals Separations process prove practical on the ores of Mohave county many of the mines of the Cerbat range would be made valuable. Unless these ores are dressed up for the market at the mines it will be impossible to work the properties at a profit, but it is believed that oil separation will solve the difficulty.

James Burke, of the Arizona Central Bank force, returned yesterday from a vacation trip.

In Harmony With Nature

Will G. Richmond, Inglewood, Calif., says he will be glad to answer any inquiries regarding the benefit he had from using Foley's Honey and Tar Compound. "It has also greatly benefited me for bronchial trouble and cough, and acts so well in harmony with nature, it is more like a food than a medicine. H. H. Watkins, Druggist.

Sam Settle, one of the old timers of this county, died at the county hospital last Wednesday night. He had been ailing several months and when brought from Yucca to the hospital was in the last stages of disease. He is said to come from a good family in Virginia, but no one appears to know the address of relatives. He was a kindly man and had many friends throughout this part of the county.

WANTED: From 30 to 40 H.-P. second hand air compressor complete. Will pay cash and must be a bargain and in first-class condition.

ARIZONA VENTURE CORPORATION,
Kingman, Arizona.

Little Wanderer Shoes

Correct fitting lasts are nowhere more important than in children's shoes. If the young feet are allowed to develop properly, much of the foot trouble of later years can be avoided.

LITTLE WANDERER SHOES are scientifically constructed to meet the requirements of growing feet. They are roomy and of sturdy appearance.

They have the wear and are guaranteed to give satisfaction.
